

PAIN MANAGEMENT PROTOCOL

Corganics Clinical CBD can be an additional option for pain management.

Corganics Clinical CBD Softgels (30 softgels, 30mg each)

Provides a precise serving of CBD in a convenient softgel using our Advanced Lipid Technology (A.L.T.).

Recommended Dosing:

Take (1) 30mg softgel twice daily in the morning & evening, with food for best absorption.

Corganics Clinical CBD Drops (30 servings, 46.7mg each)

Receive the potential benefits of our rapidly absorbed oral drops. This broad-spectrum hemp extract is formulated with organic olive oil.

Recommended Dosing:

As needed, place one dropper (1 ml) under the tongue for 30 seconds, then swallow.

Corganics Clinical CBD Cream (1 fl oz, 30 pumps)

Developed in conjunction with physicians, this unscented formula is designed to maximize topical effects of CBD.

Recommended Dosing:

Apply 1-3 pumps around affected area daily as needed. Do not put on any incision.
