

This practice recommends Corganics Clinical CBD as part of our multimodal recovery regimen.

BEFORE SURGERY

- Stop NSAIDs 7 days prior to surgery.
- **Corganics Clinical CBD Softgels:**
 - Begin taking (1) softgel daily with food 7 days prior to surgery.

AFTER SURGERY

- **Corganics Clinical CBD Softgels:**
 - Take (1) softgel twice-daily in the morning and evening with food for best absorption.
- **Corganics Clinical CBD Drops:**
 - As needed, place one dropper (1 ml) under the tongue for 30 seconds, then swallow.
- **Corganics Clinical Topical CBD Cream:**
 - After (2) weeks and cleared by surgeon, you may apply 1-3 pumps on affected area daily, as needed.
